EXPLANATION:

FPT Corporation explains the variation of net revenue and profit after tax in Quarter 4 of 2023 and the whole year of 2023, in comparison with the same period last year as follows:

							Ui	nit: Million VND		
ltem	Year 2023	Year 2022	Increase/(Decrease)		Increase/(Decrease)		Year 2023	Year 2022	Increase/(Decrease)
	Quarter IV	Quarter IV	Amount	Percentage	Accumulated	Accumulated	Amount	Percentage		
Net Revenue	180,055	138,226	41,829	30%	<mark>578,3</mark> 16	478,224	100,093	21%		
Profit after tax	3,401,965	993,709	2,408,257	242%	6,720,505	3,136,285	3,584,220	114%		

Net revenue on separate financial statements of FPT in Quarter 4 of 2023 is about VND 180 million, an increase of 30% over the same period last year. Cumulatively for the whole year of 2023, the company's net revenue reach VND 578 billion, an increase of 21% compared to 2022. The increase in net revenue is mainly due to the increase in revenue from administrative expenses paid on behalf of and reallocated back to subsidiaries in 2023 compared to 2022 (increase by 30% in the 4th quarter and a cumulative increase by 21% during the year).

Profit after tax in the fourth quarter of 2023 reached VND 3,402 billion, an increase of VND 2,408 billion (equivalent to an increase of 242%) compared to the same period last year. Cumulatively for the whole year 2023, the company's profit after tax is about VND 6,721 billion, an increase of VND 3,584 billion (equivalent to an increase of 114%) compared to 2022.

The increase of profit after corporate income tax is mainly due to the increase of financial income. In the fourth quarter of 2023, financial revenue increased by VND 2,574 billion, equivalent to an increase of 243%, because dividends/profits distributed from subsidiaries increased by VND 2,550 billion compared to the same period in 2022. Cumulative for the whole year of 2023, financial revenue increases by VND 3,776 billion, equivalent to an increase of 104%, due to dividends/profits distributed from subsidiaries increasing by VND 3,585 billion compared to 2023.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

FORM B 09-DN

These notes are an integral part of and should be read in conjunction with the accompanying separate financial statements

I. GENERAL INFORMATION

Structure of ownership

FPT Corporation (the "Company") was incorporated as a State-owned company in Vietnam and subsequently equitised in accordance with Decision No. 178/QD-TTg, following which the Company officially operated as a joint stock company. FPT Corporation operates under Business Registration Certificate No. 0103001041 issued for the first time by Hanoi Department of Planning and Investment dated 13 May 2002 and its amendments.

According to the amended Business Registration Certificate dated 19 December 2008, the Company changed its name from the Corporation for Financing and Promoting Technology to FPT Corporation.

According to the 56th amendment of Business Registration Certificate dated 19 May 2023, the Corporation changed the Charter capital into VND 12,699,688,750,000.

Since December 2006, the Company's shares have been listed on Ho Chi Minh City Stock Exchange.

Normal production and business cycle

The Company's normal production and business cycle is carried out for a time period of 12 months or less.

Operating industry and principal activities

The principal business activities of the Company are to provide information technology and telecommunication products and services and to do investment activities. The main products and services provided include system integration; software production and software service; IT services; software solution services; telecommunication and internet services; warranty and maintenance of telecommunication and IT equipment and other telecommunication services.

The Corporation's structure

As at 31 December 2023, FPT Corporation had 01 branch including Brand in Ho Chi Minh City – FPT Corporation (Hanoi City), 8 subsidiaries and 2 associates.

Subsidiaries of the Company including:

- FPT Information System Corporation;
- FPT Telecom Joint Stock Company;
- FPT Software Company Limited;
- FPT Education Company Limited;
- FPT Online Services Joint Stock Company;
- FPT Investment Company Limited;
- FPT Smart Cloud Company Limited;
- FPT Digital Company Limited.

Associates of the Company including:

- FPT Digital Retail Joint Stock Company;
- Synnex FPT Joint Stock Company.

FORM B 09-DN

These notes are an integral part of and should be read in conjunction with the accompanying separate financial statements

II. ACCOUNTING CONVENTION AND FINANCIAL YEAR

Accounting convention

The accompanying separate financial statements, expressed in Vietnam Dong (VND), are prepared under the historical cost convention and in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting.

The accompanying separate financial statements are not intended to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam.

Financial year

The Company's financial year begins on 01 January and ends on 31 December.

III. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies, which have been adopted by the Company in the preparation of these separate financial statements, are as follows:

Estimates

The preparation of the separate financial statements in conformity with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the separate financial statements and the reported amounts of revenues and expenses during the financial year. Although these accounting estimates are based on the management's best knowledge, actual results may differ from those estimates.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Financial investments

Held-to-maturity investments

Held-to-maturity investments comprise investments that the Company has the positive intent or ability to hold to maturity, including term deposits (commercial bills), bonds, preference shares which the issuer shall redeem at a certain date in the future, loans held to maturity to earn periodic interest and other held-to-maturity investments.

Held-to-maturity investments are recognised on a trade date basis and are initially measured at acquisition price plus directly attributable transaction costs. Post-acquisition interest income from held-to-maturity investments is recognised in the income statement on accrual basis. Pre-acquisition interest is deducted from the cost of such investments at the acquisition date.

Held-to-maturity investments are measured at cost less provision for doubtful debts.

Provision for doubtful debts relating to held-to-maturity investments is made in accordance with prevailing accounting regulations.

Loan receivables

Loan receivables are measured at cost less provision for doubtful debts. Provision for doubtful debts relating to loan receivables is made in accordance with prevailing accounting regulations.

FORM B 09-DN

These notes are an integral part of and should be read in conjunction with the accompanying separate financial statements

Investments in subsidiaries

Investment in subsidiaries

A subsidiary is an entity over which the Company has control. Control is achieved where the Company has the power to govern the financial and operating policies of an investee enterprise so as to obtain benefits from its activities.

Investments in associates

An associate is an entity over which the Company has significant influence and that is neither a subsidiary nor an interest in joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but not control or joint control over those policies.

Investments in subsidiaries are initially recognised at cost. The Company's share of the net profit of the investee after acquisition is recognised in the interim income statement. Other distributions received other than such profit share are deducted from the cost of the investments as recoverable amounts.

Investments in subsidiaries, associates are carried in the interim balance sheet at cost less provision for impairment of such investments. Provisions for impairment of investments in subsidiaries, joint ventures and associates are made when there is reliable evidence for declining in value of these investments at the balance sheet date.

Equity investments in other entities

Equity investments in other entities represent the Company's investments in ordinary shares of the entities over which the Company has no control, joint control, or significant influence.

Equity investments in other entities are carried at cost less provision for impairment.

Receivables

Receivables represent the amounts recoverable from customers or other debtors and are stated at book value less provision for doubtful debts.

Provision for doubtful debts is made for receivables that are overdue for six months or more, or when the debtor is in dissolution, in bankruptcy, or is experiencing similar difficulties and so may be unable to repay the debt.

Inventories

Inventories are stated at the lower of cost and net realizable value. Cost comprises direct materials and where applicable direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Cost of inventories within the Company is calculated using the first in, first out (FIFO) method and inventory recording method is the perpetual method. Net realisable value represents the estimated selling price less all estimated costs to completion and costs to be incurred in marketing, selling and distribution.

The evaluation of necessary provision for inventory obsolescence follows current prevailing accounting regulations, which allow provisions to be made for obsolete, damaged, or sub-standard inventories and for those which have costs higher than net realisable values as at the balance sheet date.

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation.

The costs of purchased tangible fixed assets comprise their purchase prices and any directly attributable costs of bringing the assets to their working condition and location for their intended use.

The costs of self-constructed or manufactured assets are the actual construction or manufacturing cost plus installation and test running costs.

FORM B 09-DN

These notes are an integral part of and should be read in conjunction with the accompanying separate financial statements

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives as follows:

	(Years)
Buildings and structures	10 <mark>- 3</mark> 0
Machinery and equipment	5 - 20
Office equipment	3 – 5
Motor vehicles	4 - 6
Other assets	3 - 4

Intangible assets and amortisation

Computer software

Purchase price of new computer software which is not an integral part of related hardware is capitalized and accounted for as intangible assets. Computer software is amortized into the income statement on a straight-line basis from 3 to 5 years.

Construction in progress

Properties in the course of construction for production, rental or administrative purposes, or for the purposes not yet determined, are carried at cost. Cost includes professional fees, and for qualifying assets, borrowing costs dealt with in accordance with the Company's accounting policy. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Long-term prepayments

Long-term prepayments comprise prepaid land rentals and other expenses to guarantee the usage of the rented areas, prepaid office rentals, tools and supplies issued for consumption, office refurbishment expenses.

Tools, supplies issued for consumption, small devices and office refurbishment expenses are stated at cost and expensed pursuant to current regulations.

Revenue recognition

Revenue from services

Revenue of a transaction involving the rendering of services is recognised when the outcome of such transaction can be measured reliably. Where a transaction involving the rendering of services is attributable to several periods, revenue is recognised in each period by reference to the percentage of completion of the transaction at the balance sheet date of that period. The outcome of a transaction can be measured reliably when all four (4) following conditions are satisfied:

- (a) The amount of revenue can be measured reliably;
- (b) It is probable that the economic benefits associated with the transaction will flow to the Company;
- (c) The percentage of completion of the transaction at the balance sheet date can be measured reliably; and
- (d) The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Interest income is accrued on a time basis, by reference to the principal outstanding and at the applicable interest rate.

Dividend income from investments is recognised when the Company's right to receive payment has been established.

FORM B 09-DN

These notes are an integral part of and should be read in conjunction with the accompanying separate financial statements

Foreign currencies

Transactions arising in foreign currencies are translated at exchange rates ruling at the transaction date. The balances of monetary items denominated in foreign currencies as at the interim balance sheet date are retranslated at the exchange rates on the same date. Exchange differences arising from the translation of these accounts are recognised in the interim income statement.

Borrowing costs

Borrowing costs are recognised in the interim income statement in the period when incurred unless they are capitalised in accordance with Vietnamese Accounting Standard No. 16 "Borrowing costs". Accordingly, borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the cost of those assets. For specific borrowings for the purpose of construction of fixed assets and investment properties, borrowing costs are capitalised even when the construction period is under 12 months.

Related parties

Related parties comprise subsidiaries, associates and key management personnel of the Company.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible.

Deferred tax is recognised on significant differences between carrying amounts of assets and liabilities in the separate financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using balance sheet liability method. Deferred tax liabilities are generally recognised for all temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which deductible temporary differences can be utilised. There were no material temporary differences during the year and hence, no deferred tax has been recorded.

Deferred tax is calculated at the tax rates that are expected to apply in the year when the liability is settled or the asset realised. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same tax authority and the Company intends to settle its current tax assets and liabilities on a net basis.

The determination of the tax currently payable is based on the current interpretation of tax regulations. However, these regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations.

Other taxes are paid in accordance with the prevailing tax laws in Vietnam.

FORM B 09-DN

These notes are an integral part of and should be read in conjunction with the accompanying separate financial statements

All ordinary shares have a par value of VND 10,000. Each share is entitled to one vote at shareholders' meetings of the Company. Shareholders are entitled to receive dividends as declared at each point of time. All ordinary shares are ranked equally with regard to the Company's residual assets. In respect of shares bought back by the Company, all rights are suspended until those shares are re-issued.

Shares subject to ownership transfer restriction have a par value of VND 10,000. These shares are subject to restrictions according to which shareowners are not allowed to resell their shares within specified term from the date of issuance.
